

ACD14 Container Dolly

Base, Line Maintenance &
Ground Handling Equipment

Ground Handling Equipment

Reliable easy to use low maintenance equipment
for efficient ramp operations.

Key features

- 1600kg carrying capacity.
- 360 degrees rotating platform.
- 64mm steel tow eye.
- Turntable steering.
- Brakes automatically latch when Tow-Bar is in raised position.
- 'Roll Over' stop at each end of platform.

ACD14 Container Dolly

Part of a range of robust, reliable, high capacity ramp container and pallet dollies. Compliant to IATA and European CE Standards and specifically designed for arduous service over many years on busy airport ramps.

The ACD14 is 1600kg capacity Container Dolly complete with a 360 degrees rotating load-platform with auto-locking at every 90 degrees. The lock is released via a foot pedal at either side. The platform has two rows of rollers, a central walkway and side-guides with tapered lead at each end which incorporate vertical restraint for the container. The unit also comes equipped with 'roll-over' stops at each end of the platform which are depressed by the container and automatically raised behind the container.

The running gear consists of 4 310x133mm super elastic, resilient solid rubber tyres on two piece rims. Our unique flange mounted hub system with 4-stud taper roller bearing is also a key feature in this unit. The front wheels are fitted with Turntable steering on a heavy duty Ball Bearing Ring.

The Tow-Bar is fitted with a grip handle and a 64mm steel eye. The Rear-Hitch is a vertical welded steel post with a sprung safety latch. The units brake is operated from the front wheels and actuated when the Tow-Bar is automatically latched in the raised position.

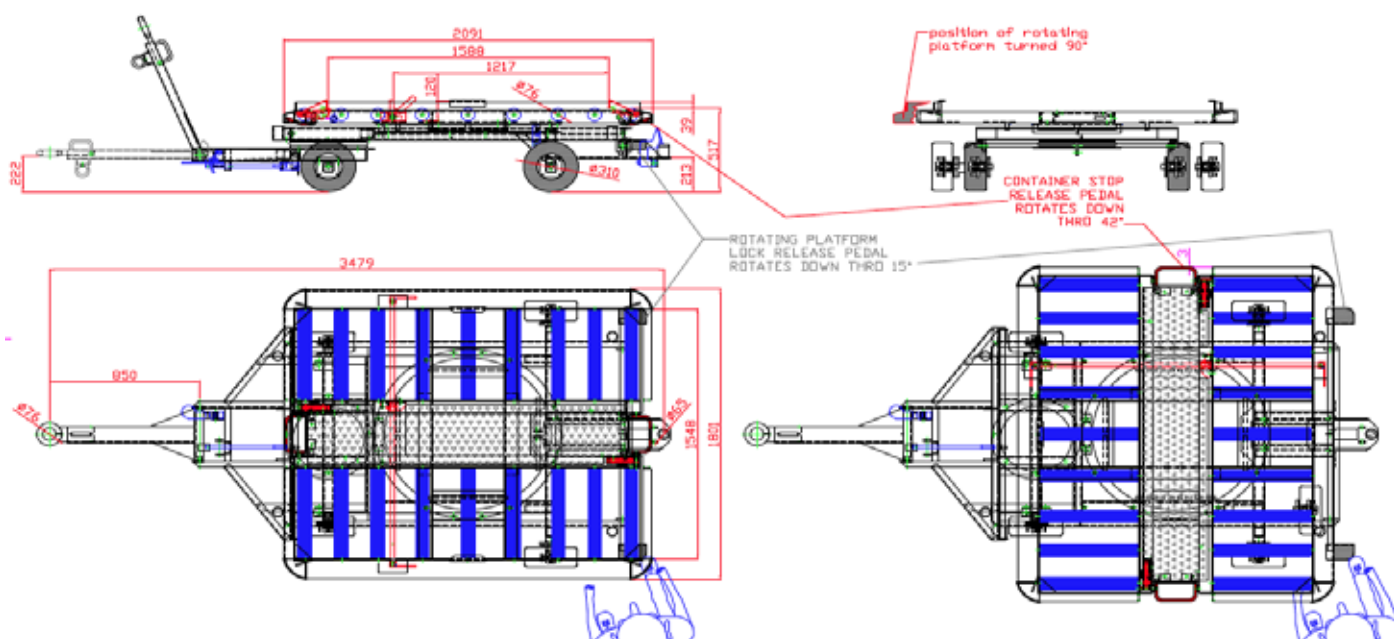

This stackable unit comes with hi-visibility markings on surround frame, corners and both sides of the tow bar.

ACD14 Container Dolly

Product code:
3100-010-00-00
