

Slave Pallet Racks

Base, Line Maintenance &
Ground Handling Equipment

Ground Handling Equipment

Reliable easy to use low maintenance equipment
for efficient ramp operations.

Key features

- Up to 7000kg carrying capacity.
- Multiple fork lift pockets.
- Option of roller, ball or bolster conveying surface.
- Fixed guide rails available.
- ULD capacities of up to 96" x 125".
- Selection of stops.

Slave Pallet Racks

Part of a range of robust, reliable, high capacity ramp containers and pallet dollies. Compliant to IATA and European CE Standards and specifically designed for arduous service over many years on busy airport ramps.

Our range of slave pallets have a standard carrying capacity of up to 7,000kg. There are several designs of conveying surfaces to choose from including; gravity rollers, steel ball transfer units - both with continuous guide rails.

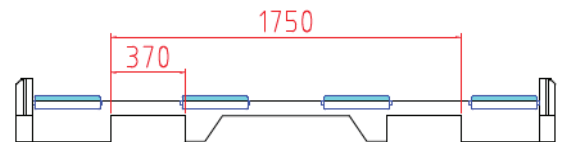

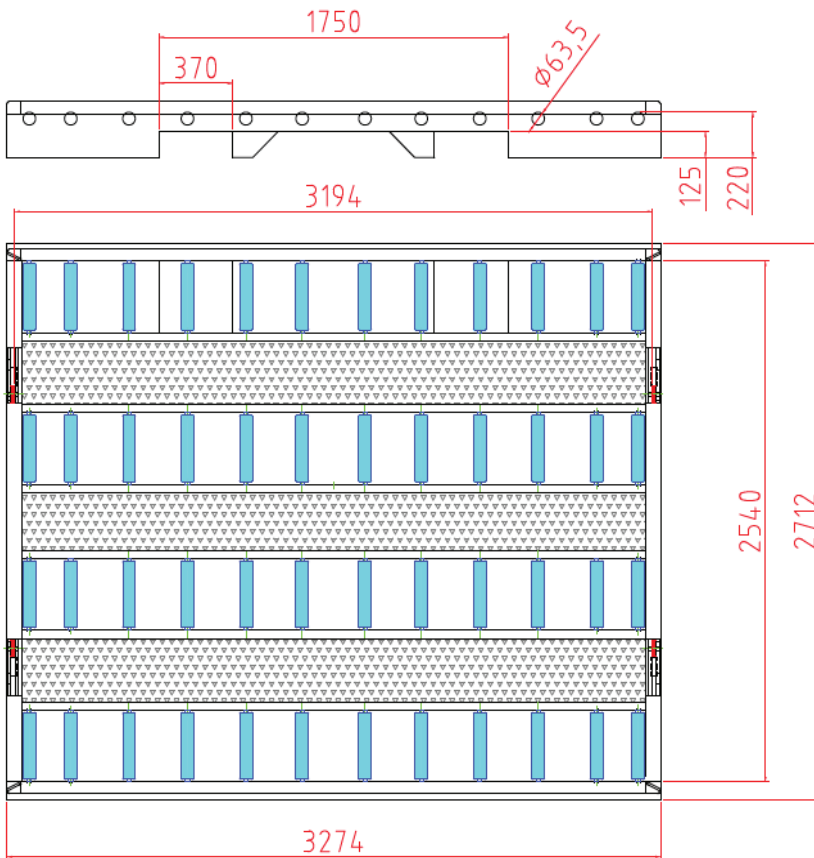

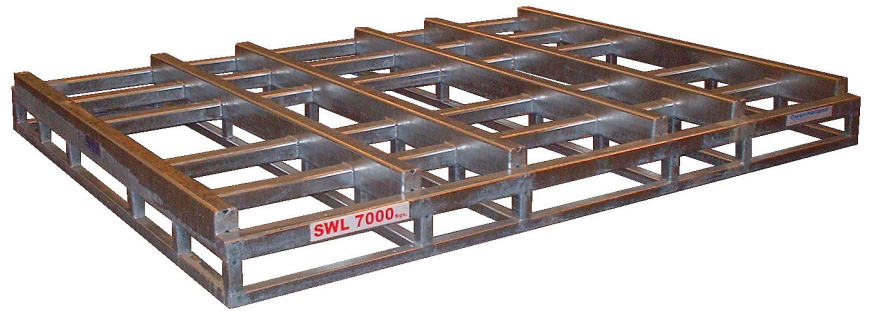

There is also the option of a load bed constructed from hollow section with 6 large bolsters across the width of the bed to support the pallets or loose freight. Four way fork entry is standard for each model.

The unit is finished with galvanised frame work and BZP rollers. Stops are painted red and the legs are highlighted in day glow paint.

Slave Pallet Racks
