- Fully welded and galvanised heavy duty steel frames.
- 2,3 or 4 roller lanes.
- Inverted castors or rollers.
- Light duty versions available for empty ULD containers.
- Loading heights 460mm to 510mm.
- BZP Castors / Rollers.

Static Pallet Racks

Part of a range of robust, reliable, high capacity ramp containers and pallet dollies. Compliant to IATA and European CE Standards and specifically designed for arduous service over many years on busy airport ramps.

With carrying capacities of 460mm to 510mm this diverse range of static pallet racks comes with a range of options including, conveying surfaces; castors or option of zinc or nylon rollers. Both surfaces come equipped with precision ball bearings, adjustable feet are also offered with bolt down facility if required.

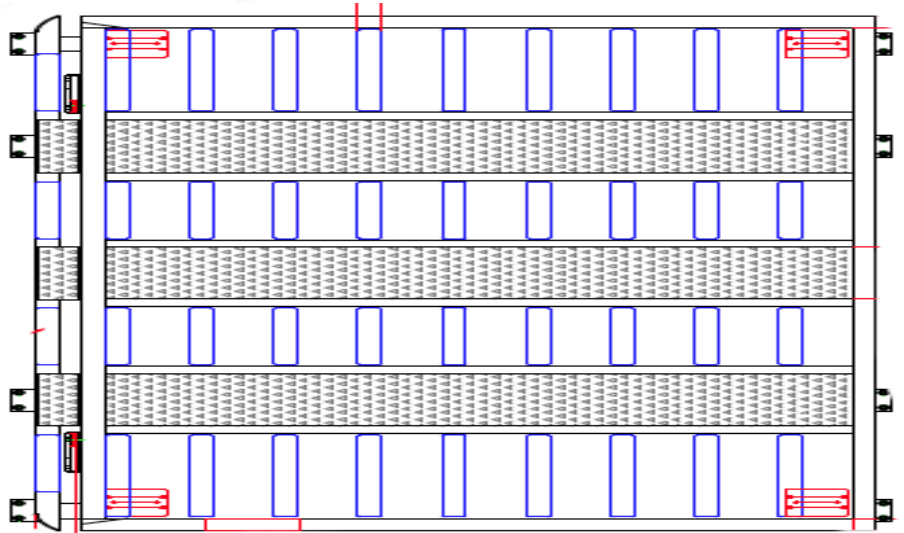

A range of stops, including; pivoting, lift-up, spring detented and 'slab' type are also presented. Some models also feature hexagonal double loaded spring spindles or shafts. All walkways are equipped with non-slip treadplates.

The units are finished with galvanised frame work, BZP rollers, stops are painted red and the legs are highlighted in day glow paint.

Static Pallet Racks
